

The Negro As a Criminal.

Federal census bulletin on homicide has been issued which has a special feature from the fact that it gives the number of negroes arrested for homicide in comparison with the number of white persons born of native parents. The bulletin does not show that the negroes are characterized by the peaceable disposition that is held for homicide at the taking of the census, whether convicted or not. It appears from them that in 1890 there were 1,100 native parentage held as homicide in the District of Columbia, while there were eight held; in Delaware there were 1,000 and four negroes; in Maryland, 1,000 and 47 negroes; in Virginia, 1,000 and 117 negroes; in West Virginia, 41 whites and 12 negroes; in North Carolina, 43 whites and 91 negroes; in South Carolina, 20 whites and 136 negroes; in Georgia, 54 whites and 290 negroes; in Florida, 13 whites and 82 negroes. The total for this group of 232 whites to 787 negroes, or 3.4 negroes to one white, though the population in the entire group is in excess of the African.

North Central group, composed of Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, North Dakota, South Dakota, Nebraska and Kansas, there were 264 whites held for homicide as against 706 negroes so held—this though the population in these States is relatively smaller than in the group.

South Central group, composed of Texas, Tennessee, Alabama, Mississippi, Louisiana, Arkansas, Missouri, Iowa, Nebraska, Kansas, Oklahoma, and Indian Territory, there were 528 whites and 714 negroes held for homicide.

Each of the entire United States, in the population, they constitute only about 10 per cent. of the population, they furnished 2,700 out of a total of 7,351 prisoners held for homicide or some 37 per cent. of the whole.

And this is the statistics of such crimes as rape, theft and burglary would bear still heavier on the

reference that education is a failure to the negro is by no means to be overlooked. Although negroes are furnished to the criminal classes at a high rate, it simply proves that the negroes are getting an education. Very largely the education of mean whisky and a mixture that would do any race much less a race as capable of controlling its passions as the negroes are when they are given assistance or direction to their devices. It is hard to say what would be the outcome if this went on, but it must not go on unchecked. Some means must be found of directing the negroes better direction than is capable of giving themselves.—A Republic.

Do you want to rent a house? Call on R. L. Newsom.

P. S.—Good paying renters can generally secure a house. Let me put a "bug in your ear," R. L. Newsom rents property and collects the rents on a commission of ten per cent. and, renting being a specialty with him, don't you know it is better to place your property in his hands than to rent it yourself? Why? Because he is controlling a large amount of property and lifting non-paying renters and "unhealthy" and he soon gets rid of them. Newsom hears but few complaints from good renters, but the "howl" comes from those fellows who do not want to pay, and to such he says "Call on Somebody Else."

Is Newsom hard hearted? Not especially so. He will accommodate you if you pay for it, and provided you stand to your side of the bargain if you don't like his way of dealing.

Oh! Sympathetic hypocrites; when your sympathy gets above your judgment don't blame the landlord quite so much, but call "round at his office and drop in \$5.00 for the special object of your sympathy and help pay his rent. It will be dividing the loss on bad renters, and then you will feel better. Don't let the landlord lose it all!"

P. S.—The above scripture is addressed to the heathen gentiles.

R. L. Newsom has about sixty renters and he don't want any but paying ones. To good paying renters he will take special pains to make them comfortable.
